in list <u>To Do</u>

☰ Description   Edit

Only the losses gets incremented by 1 when the player loses and when the player wins. The wins remain at 0.

Steps to Reproduce

1. Navigate to <u>http://localhost:3000</u>

2. Click on 'Draw' button

3. Click 'Add to Duo' button for two bots

4. Click 'Duel!' button at the bottom of the page.

5. Keep track of your wins/losses

6. Click 'Play Again!' button.

7. Repeat steps 2-6 until you have least 1 win and 1 loss.

Expected result

- The wins should increment by 1 only when the player wins.

- The losses should increment by 1 only when the player loses.

Actual result

- The losses increment by 1 regardless of the player winning or losing.

- The wins never increment by 1 when the player wins.

Environment
